Anna becomes the face of FinEstAm

From Channel 4 'I'm a Celebrity...' & BBC 'Changing Rooms', the 'Queen of MDF', TV presenter and interior designer Anna Ryder Richardson is now the proud owner of her very own FinEstAm log home...

“To find a practical & comfortable living space from sustainable resources and to get it so quickly was amazing!”

A natural solution to a superior work/life balance

Anna recently acquired Manor House Wild Animal Park in Tenby, West Wales. When looking for quick, comfortable and eco-friendly living accommodation, she came across FinEstAm.

Anna was on a tight schedule, but FinEstAm were able to meet her needs by pulling off one of the fastest turnarounds in log home history!

The whole installation process from delivery to completion was filmed by Channel 4 for a programme about Anna's zoo adventure.

She has now sold her mansion in Scotland and moved permanently into her FinEstAm log home onsite at the zoo. She was so pleased with our service and products that she has agreed to become FinEstAm's face for marketing activities.

"In 2007 I fulfilled one of my life-long ambitions of buying a zoo. I wanted to provide a positive place for wild animals to be cared for while giving people access to information about the natural world and relocating my family to a more rural setting.

It was also important for me to find an eco-friendly living solution and that's when I discovered FinEstAm log homes.

It only took three weeks from the initial contact to the house being up and ready to move into.

I couldn't believe it!

I am thrilled to have found a practical and comfortable living space, made from sustainable resources which allow us all to live at the zoo, without harming the environment."

Designed Just For You...

A healthy and natural lifestyle in your dream home

*If you've had enough of the never-ending "rat race" of city life, why not **escape to the country**; retreat to perfection. Whether you love rural adventures or the relaxed pace of country life, a log home provides **modern comforts in an inspirational setting.***

“ Nature's peace will flow into you as sunshine flows into trees ”

John Muir

Modern comforts in an inspirational setting

Get away from it all and breathe in the fresh air of the countryside for the ultimate lifestyle. Timber is a living building material, the logs breathe, which releases oxygen molecules into your home making it the ideal living environment for easing the symptoms of respiratory diseases such as asthma.

Your children can grow up exploring and learning about nature. You can feel part of a strong rural community and get that quality of life you've always longed for.

With FinEstAm you can live in the ideal location in your very own dream home.

*Your Grand Design
can be tailored just for
you and your family.*

A serene sunset scene over a calm lake. The sun is a bright yellow orb in the upper right, partially obscured by soft, grey clouds. The sky transitions from a pale blue to a warm orange near the horizon. The dark silhouette of a log cabin is visible in the foreground, and its reflection is cast on the still water. The overall mood is peaceful and natural.
