About us

We are an Anglo-Estonian family run business with well established supply lines of factories, shippers and fitters for log cabins and homes, covering all of UK and delivering to anywhere in Europe.

Having built and lived in log buildings ourselves for many years gives us first hand experience of the comfort, warmth and wellbeing that is created from living in a log home. We have extensive knowledge and are passionate about the work we do offering you all the help, advice and information you will ever need.

We very much value customer satisfaction and are here to offer you the most comprehensive and professional service at all times. It is our aim to continue to provide high quality buildings and contribute towards an environmentally friendly lifestyle.

Our range of mobile homes has been developed to offer attractive designs in a wide variety of styles and accommodate different requirements. Now far from the basic caravans or cold park homes used in the early days, FinEstAm log built mobiles homes are becoming the choice of many. The high quality builds of FinEstAm homes and the spacious designs are able to accommodate anything you may have in mind. And what's more, these homes can also be fully customized. We really believe that by working together there will be something to keep you satisfied.

There are many advantages to living in a log home and these are just some:

- You will be living in a healthier environment
- Log homes are very energy efficient and environmentally friendly
- You will benefit from greatly reduced running costs
- Our mobile homes can either be static or mobile (on a steel chassis).

A further advantage is that the FinEstAm mobile homes are compliant with the British standards and caravan acts and are therefore free of VAT saving you thousands and allowing you to expand your budget.

Whether you are developing a leisure park, want a home for your family, need accommodation for your workers, need an office building or are thinking of a second property, a FinEstAm home could be your ideal solution.

Please feel free to browse our brochure and find the home that suits you best. You can also ring fax/email us your desired plans and we'll help you turn your ideas into a beautiful home.

If you want to order, have any questions or need more information simply give us a call on **01425 462 502** and one of our friendly staff members will help you, alternatively visit our website at **www.finestamlogcabins.co.uk** for more answers and more designs.

Anna becomes the face of FinEstAm

“

To find a practical & comfortable living space from sustainable resources and to get it so quickly was amazing!

”

“In 2007 I fulfilled one of my life-long ambitions of buying a zoo. I wanted to provide a positive place for wild animals to be cared for while giving people access to information about the natural world and relocating my family to a more rural setting.

It was also important for me to find an eco-friendly living solution and that's when I discovered FinEstAm log homes.

It only took three weeks from the initial contact to the house being up and ready to move into.

I couldn't believe it!

I am thrilled to have found a practical and comfortable living space, made from sustainable resources which allow us all to live at the zoo, without harming the environment.”

Anna Ryder Richardson

Mobile log cabins offer the perfect solution to rural expansion projects with beautiful, spacious options that allow for a great deal of flexibility in design.

About our products and services

FinEstAm can offer a solution **designed just for you** to let your family cohabit harmoniously by expanding your living space. Why not build one for yourself and let the kids take over the farm work whilst you can **kick back and enjoy** life in a healthy environment!
